

MADE IN BRITAIN

MULTI-TURN

— TIMBER STAIRCASES —

OPTIONAL EXTRAS

STAIR PROTECTION PACKAGES

ADVANTAGES OF STAIR PROTECTION

- Reduces site labour of fitting protection
- Keeps stairs in a good condition ready for hand over
- Saves wasted money on remedials
- Saves unnecessary time on preparing for decorating

BRONZE PROTECTION

- A strong polythene sheeting is fitted over the straight treads and risers and held in place with hardboard
- Any loose treads or winders would have the board applied without any polythene sheeting

SILVER PROTECTION

- As Bronze plus:
- Protective corner trims supplied loose for fitting around newels after stairs are installed
 - Foam handrail protector supplied loose for fitting over handrail after the stairs are installed.
 - A roll of adhesive tape is supplied for securing these items in place.

PLATINUM PROTECTION

- A strong plastic board is fitted over the straight treads and risers and held in place with specialist non-marking adhesive pads that have high bond strength
- Protective corner trims supplied loose for fitting around newels after stairs are installed
- Foam handrail protector supplied loose for fitting over handrail after the stairs are installed.
- A strong plastic board is supplied loose for covering the sides of the balustrade after the stairs are installed
- A roll of adhesive tape is supplied for securing the protection around the newels, handrail and balustrade

BASE COAT PACKAGE

ADVANTAGES OF BASE COAT

- Saves decorating labour
- Seals and protects stairs

PRIMING

Includes for knotting and a quality white primer to all components which are to be painted

SEALER COAT*

Includes for clear sealer to all visible components which are not being painted, a final finish will need to be applied

* We use a clear sealer, and whilst this offers a good level of protection against wet trades and finger marks, the colour of the timber cannot be dyed or lightened after treatment.

Unit 30, Moorside Road, Winchester, SO23 7RX
