MULTI-TURN JOURNEY

1. Conception

Provide plans, or photos and approximate dimensions if replacing an existing staircase, for pricing.

2. Specification

Choose from our wide range of standard designs and timber choices, or opt for bespoke components. Visit our website, showroom or request a brochure for inspiration and help… or just give us a call.

3. Proposal

We will issue a detailed quotation, including a drawing, based on your chosen design.

4. Order & Deposit

Secure your survey and delivery slots with a deposit, or a written order if on agreed credit account terms. Dates can be adjusted to suit your schedule as your project progresses.

5. Site Survey

We visit site to measure, taking on full responsibility that your staircase will Fit First Time.

6. Design

Your project manager designs your staircase based on site survey measurements and will ensure compliance with current building regulations.

7. Order Confirmation

A fully dimensioned drawing is provided for approval before manufacture.

8. Manufacture

Your bespoke staircase is crafted to British Standards with regular quality checks.

9. Dry Assembly

A full dry fit is completed, and a quality certificate is issued by an experienced joiner. Key to our quality checks, this ensures your stairs Fit First Time.

10. Delivery

Delivered in our tracked vans with a pre-arranged time slot, On-Time, In-Full.

11. Installation

Fitted by your carpenters with our support, fitting guide, and a free bottle of glue included.
